

Salem travel notes
Pete Yanke
Region 7 President
pyanke@aol.com

Here are the dates and the campgrounds we will stay in. All travel times and costs are approximate. Everyone is responsible for their own reservation and activities. I expect to be on the road by 9:00 AM every day. That should allow us to park by dinner time. We will take a driving break about every 90-100 minutes. My driving speed is 62+-. You may travel at your own speed and time. When making your reservations you can request sites that are near us if you desire. Please let me know if you plan to travel with us. Most of the campgrounds have web sites.
